

Timeport

Motorola Timeport

https://en.wikipedia.org/wiki/Motorola_Timeport

There are two classic (candybar) models of Motorola Timeport, L7089 (1999) and P7389 (2000).

My father has a candybar Timeport around 2002, mobile phone isn't popular at that time. I always play it and teach my father of advanced features after school. Today my parents are all expert of new android devices, they know every fresh stuffs of multiple applications.
